What will Earth Day 2008 feature?

At Earth Day 2008, your students will:

- see live animals
- learn about alien species invading our Great Lakes ecosystem
- see what's inside a computer
- learn how we check the quality of our air
- test water samples for impurities
- experiment with Michigan rocks
- check out furs and skulls of Michigan mammals
- see cultural performances that celebrate our heritage
- and MUCH MORE.

Over 50 hands-on activities and displays will be featured this year.

Earth Day 2008!
Tuesday, April 22, 2008
Constitution Hall, Lansing, MI**

About our Earth Day event

In 2004, the Michigan Department of Environmental Quality (MDEQ) hosted its first Earth Day celebration at Constitution Hall in downtown Lansing. MDEQ partnered with the Michigan Department of Agriculture (MDA) and statewide environmental organizations to offer hands-on, educational activities and displays to school age children from across Michigan.

Since that inaugural celebration, the state's Earth Day event has grown. Last year, over 2,500 participants, with more than 30 school groups and 14 partnering organizations, enjoyed over 50 activities and displays, including live animal exhibits, performing arts demonstrations, and an Earth Day poster contest.

School Group Opportunities

Earth Day 2008 can accommodate up to 30 school groups. School groups interested in participating must complete and return the form included in this brochure. Priority will be given to grades 3-6. Other grades will be considered as space allows. All school groups will be assigned a host for the day of the event, and each student will receive a goodie bag for participating.
